Wood | Stair Products Offering

The warmth and strength of wooden stair railings and balustrades are the foundations for handcrafted, old-world craftsmanship and construction. From the hands of artisans to the sleek machining of hard square modern lines, we provide both the traditional and contemporary wood offerings for today's updated staircase needs. HF Stair and Rail has the steel and wood products for today's stairs.

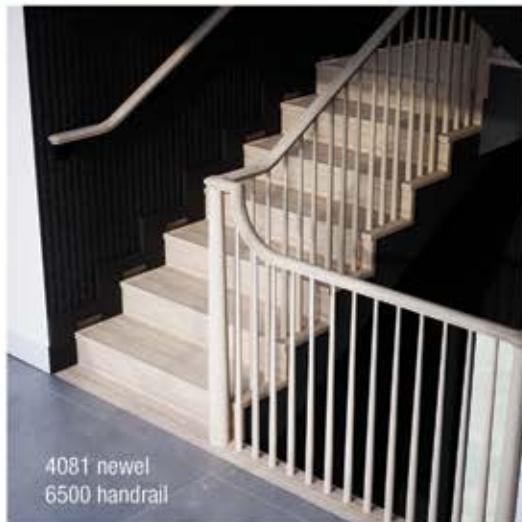

SKANDI[®]
DESIGN

Browse SKANDI - <https://cheapstairparts.com/product-category/skandi/>

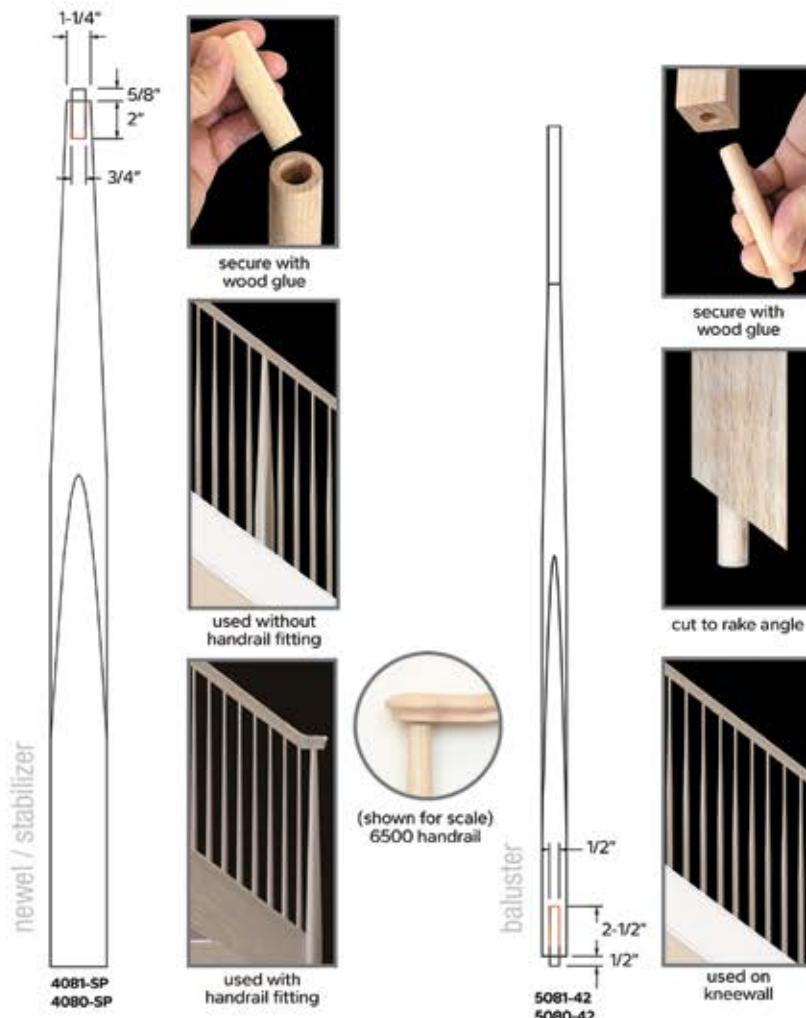

Modern Scandinavian Style

SKANDI™ is the intersection of minimal lines with the functional durability of Scandinavian design. Rounded edges create an organic flow, introducing natural lines into the living space.

Stabilizer Newel Specifications

- Pre-drilled $3/4" \times 2"$ hole
- Includes $3/4" \times 2\frac{5}{8}"$ dowel pin
- Use as a standard stabilizer connected directly to handrail or use with standard handrail fittings.

Baluster Specifications

- Pre drilled $1/2" \times 2\frac{1}{2}"$ hole
- Includes $1/2" \times 3"$ pin
- Use on level steps, balconies or angled kneewalls.

Steel | Stair Product Offering

For centuries, the utilitarian versatility of steel railings has provided an elegant foundation for stairways worldwide. Since our inception, House of Forgings has blended old-world aesthetics and forged a new concept of modern charm. Whether it be updated powder-coated angular offerings or sleek stainless products, our metal products create the new designs of the future. HF Stair and Rail has the steel and wood products for today's stairs.

Finishes & Patinas

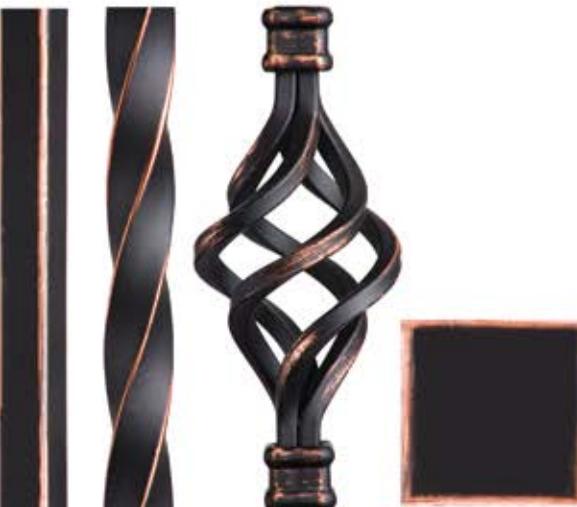

SATIN BLACK (STB)

ASH GREY (AG)

OIL RUBBED BRONZE (ORB)

OIL RUBBED COPPER (ORC)

House of Forgings provides an unsurpassed selection of designs in the highest quality powder coated finishes available. Our hand applied patinas enhance the lines and hammered detail of each unique piece. As interior design trends move forward, count on us to carry the latest styles & finishes.

SATIN CLEAR (SC)

This is a clear finish over RAW/unfinished iron, variations in surface color may occur.

DORADO GOLD (GD)

STAINLESS STEEL (Satin Polish)

BRASS (Satin Polish)

Passivated to minimize tarnishing, use gloves when handling.

BRUSHED CHROME (BC)

NICKEL (NL)

THESE FINISHES HAVE BEEN PROFESSIONALLY PHOTOGRAPHED WITH THE HIGHEST INTEGRITY. OUR GOAL IS TO PRODUCE THE MOST REALISTIC MATCH TO THE ACTUAL FINISHES, HOWEVER SOME SLIGHT VARIANCES MAY OCCUR.

HORIZONTAL
 RAILING

The future of balustrade

Round tubular steel infill bars available powder coated, or stainless steel are a fantastic alternative to cable rail. These sleek 5/8" bars are available in a convenient 8' length, or a recently added 5' length ideal for installation and affordable shipping. Create pleasing horizontal infill designs which open the staircase sightline and make your living space feel spacious.

Now available in a convenient
5ft length for less wasted material.

MEGA COLLECTION

Our most popular designs in a grand size

SIZE COMPARISON: Mega 3/4" vs. Standard 1/2"

MEGA COLLECTION

Our most popular designs in a grand size

PERFECT FOR NEW CONSTRUCTION OR REMODEL
Create mega impact with these grand balusters

- Ideal for large or small staircases
- Perfect for replacing old wood balusters
- Traditional or modern base shoe/collar options

Bold and Stylish

Larger 5/8" steel is a look of strength and sensibility. Often used in remodel applications, Mega balustrade provides a larger footprint when working out spacing when replacing products.

RIBBON

Satin Black (shown)

Ribbon

The ribbon style twist in this series pairs nicely with balusters from the Scroll and Versatile series. The ribbon is accented nicely by the Oil Rubbed Bronze patina and the Copper Vein finish.

ACCESSORY PROFILES

— Stainless Steel —

Cable Railing

Axia black newel posts, 6060 White Oak handrail (shown)

Modern Cable

Stainless steel cable infill provides a clean, modern aesthetic with highly unabsttracted visibility throughout the railing system. Accent with wood newels and rails for a warmer vibe, or pair with steel posts and rail for a modern industrial masterpiece.

Tension each row of cable equally to 225 lbs making sure not to over tighten. Use tension gauge to accurately measure tension.

HFC18.TENSION.GAUGE

Recommended Tensioning Sequence

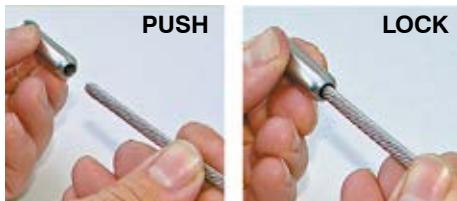

1. What posts are you using? Wood or metal?

2. Measure your level and stair runs, calculate number of level and stair fittings.

3. Add up tensioners and non-tensioners, then calculate total cable footage (plus 5%).

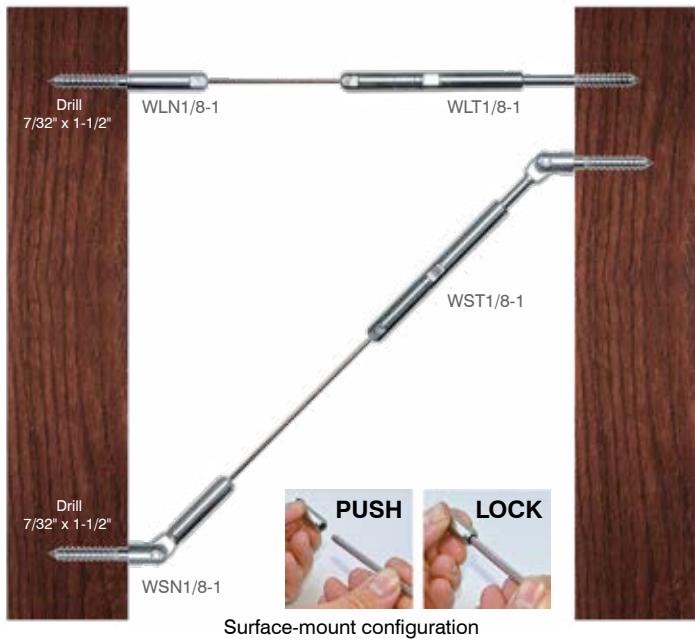

Push-Lock® Fittings

Push-Lock fittings do not require any special tools for installation. Simply push the cable into the fitting and it locks.
